

It has come to my attention that the Consumer Bankers Association has petitioned the FCC to relax restrictions on the Do Not Call list. Here in Indiana, we do not want a change that would affect our Do Not Call list. We signed up on the list for the purpose of not being bothered by the tele-marketers in our homes. We receive enough propoganda by US Mail that tele-marketing by the banks is not warrented nor wanted. Please reject this filing by this group and leave the current legislation as it is. Tnak you.
